Voice-Agent-First Coaching CRM

Product Requirements Document (PRD)

1. Product Vision

Build a CRM specifically designed for coaching institutes using AI voice agents.

The CRM should focus on:

- Lead generation
- Lead qualification
- Admissions
- Student support
- Fee management
- Follow-ups

The system should avoid becoming a complex ERP, LMS, or accounting platform.

The CRM should be organized the way coaching owners think about their business:

1. Marketing (Getting Admissions)
2. Operations (Managing Students)

---

2. Core Philosophy

Every person in the system belongs to one of three categories:

- Lead
- Student
- Alumni

The CRM's primary objective is moving people through the lifecycle:

Unknown Person → Lead → Interested → Demo Scheduled → Demo Attended → Visit Scheduled → Visit Completed → Admission Pending → Student → Alumni

---

3. Agent Architecture

Marketing Agents

Responsible for:

- Lead generation
- Lead qualification
- Admissions
- Reviews
- Referrals

Outbound Agents

1. Cold Calling Agent

Type: Outbound

Category: Marketing

Purpose:
